Domino a 2 dimensioni

Di seguito trovi gli elementi da ritagliare per creare il

Domino a 2 dimensioni

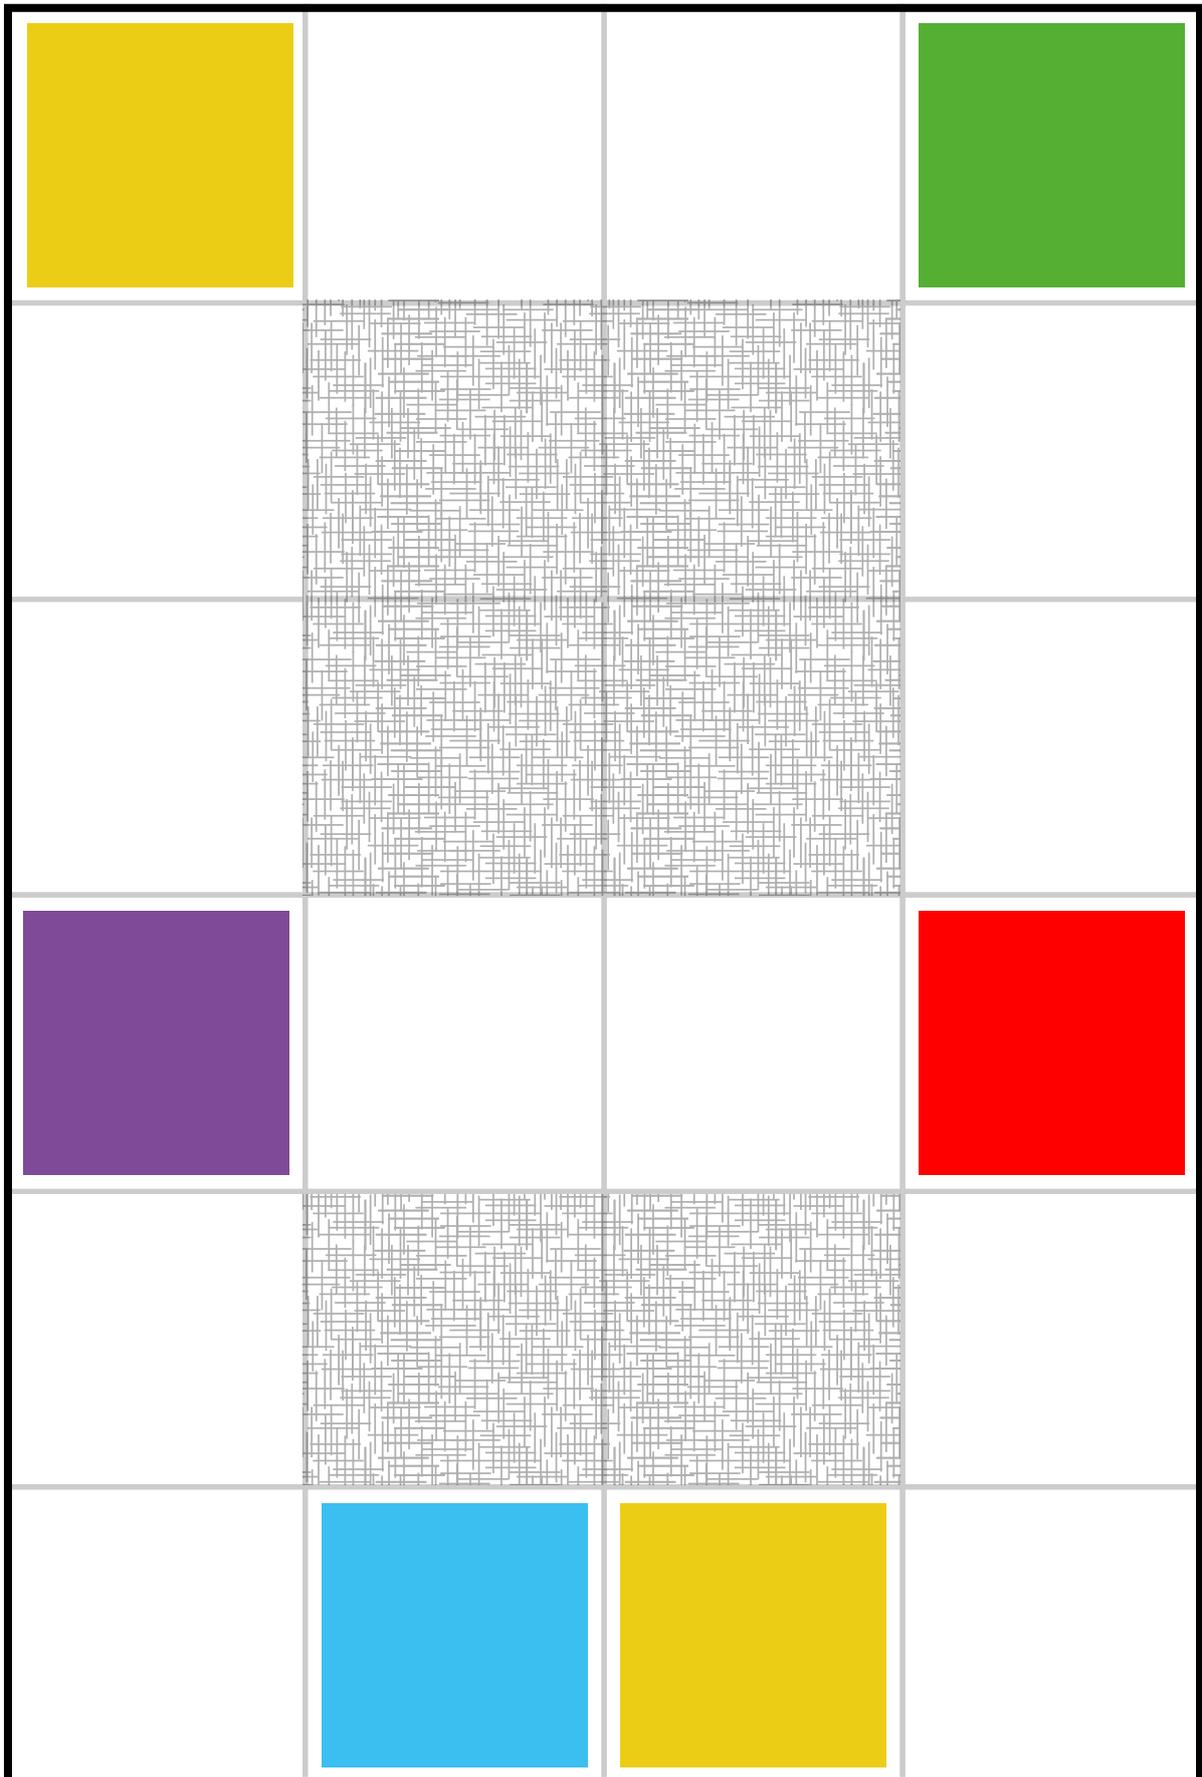

Questo gioco riprende le regole del classico domino; in questo caso il bambino dovrà sistemare delle tessere all'interno di uno schema tenendo conto di un doppio accoppiamento, come nell'illustrazione sotto.

Occorrente:

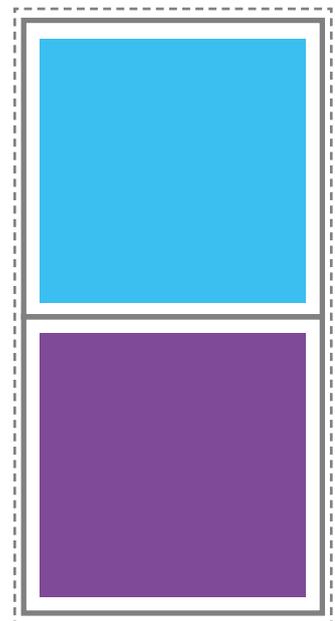

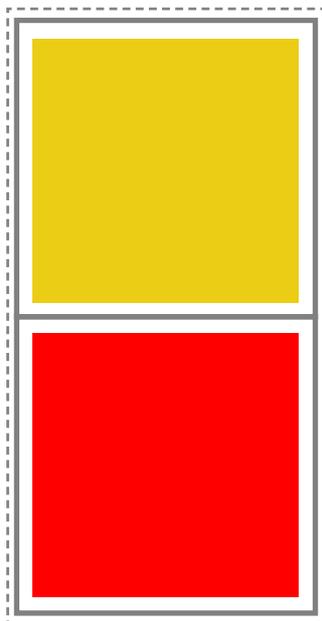

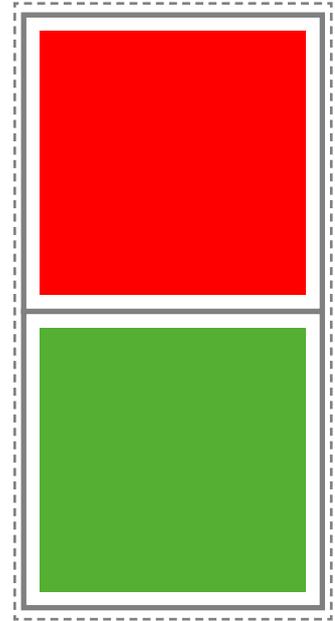

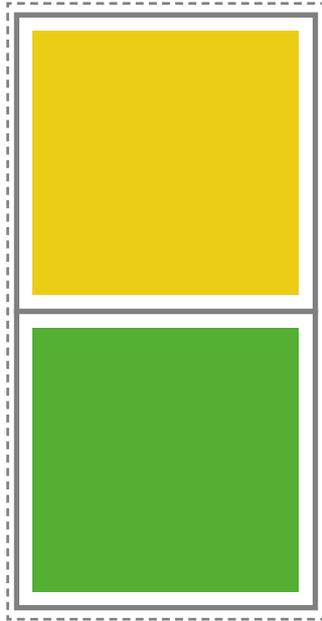

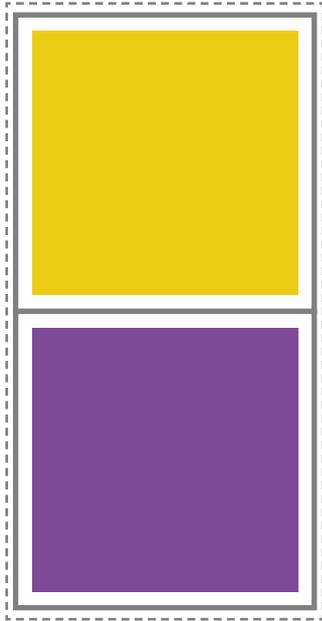

- le pagine che trovi di seguito
- forbici
- laminatrice e relative buste trasparenti.

Troverai 4 giochi completi di schema e tessere da ritagliare. Ritaglia ciascuno schema e le relative tessere. Gli schemi possono essere incollati su cartoncino se si desidera disporre di una superficie più rigida. Ti consigliamo di plastificare le tessere di ciascun gioco per favorirne la maneggevolezza ed evitare che si deformino con l'uso.
